OFFICE OF THE DEPUTY COMMISSIONER,
Mysore District,

No.D3-C.3404 of 41-42. Dated, Mysore, the 9th September 1942.

From

K. SUBBA RAO, Esq., B.A ,
Deputy Commissioner,
Mysore District, Mysore.

C NARAYANASWAMI NAIDU, Esq., B.A , B.L.,
Secretary to Government of Mysore,
Law Department, Bangalore.

Sir,

Construction of under-ground drains in Bazzar Street, Nanjangud.

In forwarding herewith the correspondence ending with letter No.H.C.115 of 41 datee the 21st May 1942, of the President, Nanjangud Town Municipal Council on the above subject, I have the honour to state as follows -

The construction of an under-ground drainage in the Bazzar Street of Nanjangud is an urgent work calculated to improve the health and sanitation of the town. An estimate for Rs.9,600/- has been prepared by the Bureau of Sanitary Engineering and the same is herein enclosed. The Municipal Council at their meeting held on 1st August 1940, have resolved that the above work at an estimated cost of Rs. 9,600/- be met by Government and the Municipal Council in equal proportions. But in view of their slender resources the Municipal Council plead inability to pay this heavy sum in a lump and request that their quota of Rs.4,800/- be advanced by Government in the first instance and be treated as a loan re-payable in ten annual instalments. Last

year while making a recommendation for Town Improvement grants it was requested that half the estimated cost amounting to Rs.4,800/- be kindly given as a grant to the Municipality and that the other half be treated as a loan carrying interest at 4½% and repayable in 10 annual instalments. But no Town Improvement Grant was given for this work.

The Minister for Local Self-Government and Public Health during his visit to the town on 27th February 1942 stated that the question of meeting half the cost of this work by Government and granting the other half as a loan to the Municipality would be sympathetically considered by Government.

In the circumstances, and in view of the urgency of work I recommend that sanction may kindly be accorded to the estimate and that the cost may be kindly ordered to be met by Government and the Municipality in equal proportions and that the Municipal quota be advanced by Government in the first instance to be repaid by the Municipality in ten annual instalments.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Mysore District.

LAW DEPT. 14 OCT 1943 GOVT OF MYSORE

Sir,

Re Drainage Scheme in Nanjangud Town

With reference to your letter No L 3757-M1 82-42-8 dated 5-10-1942 in the matter of obtaining the views of the Nanjangud Town Municipal Council, as to how they propose to discharge the loan of Rs 4800/- asked for, pointing out the source of income that would be earmarked for the repayment of the loan of Rs 4000/- already sanctioned for the installation of the pumping set etc , I have the honour to state that the President of the Municipality reports that the Council are desirous of taking up the remaining portion of the Drainage work with the help of Government in one stage after getting the details from the Sanitary Engineer a d that the present proposals of constructing underground drains in the Bazar street of Nanjangud at an estimated cost of Rs 9600/- may be dropped

Accordingly necessary plans and estimates to complete the Drainage work in the town have been called for from the Sanitary Engineer Bureau of Sanitary Engineering, by the President of the Municipality Soon after definite proposals are received from the Municipality, further report will be submitted

I have the honour to be,
Sir,
Your ost obedient servant,

NOTE ON THE DRAINAGE SCHEME OF NANJANGUD TOWN

The Government have sanctioned the Drainage Scheme at a cost of Rs 90,000/- for this town and the scheme is being executed for the past three years by stages by Sanitary Department, the Municipality and the Government bearing the cost thereof in equal shares So far, drainage work to the extent of Rs 28,910/- has been completed The Municipality and the Government have paid this year another Rs 12,050/- towards the next stage of works to be executed this year It will thus be seen that a further sum of Rs 50,000/- is required to complete the scheme A large number of pilgrims visit this Town every day and the Town is being rendered insanitary on account of the floating population who visit this place of pilgrimage. The Municipal Council have, therefore, been anxious to complete the Scheme early with a view to prevent various diseases by the stagnation of sullage water in many parts of the Town for want of proper drains to lead it off The Municipal Council have, therefore, requested the Government to complete the Scheme by contributing half its cost from Town Improvement Grants and advancing the other half and a loan to the Municipality repayable in easy annual instalments An estimate for Rs.9,600/- for constructing under-ground drainage in Bazaar and Palace Streets where the traffic is very heavy has been prepared by the Sanitary Department and approved by the Municipal Council The Municipal Council have sent this estimate to the Deputy Commissioner, Mysore District, requesting him to obtain sanction of Government to execute this work by securing half its cost as a grant from Government and the other half as loan to this Municipality repayable in easy instalments

The estimate was submitted to Government for sanction with a request that half the estimated cost amounting to Rs 4,800/- be given as a grant from Government to the Municipality and the other half be treated as a loan carrying interest at 4½ % and repayable in 10 equal instalments (Vide this office letter No D3-C.3404/41-42 dated 9-9-1942) But the Government called for the views of the Municipal Council as to how they propose to discharge the loan of Rs 4800/- asked for and to point out the source of Income that would be earmarked for the repayment of the loan But the Council are now desirous of taking up the remaining portion of the scheme in one stage after getting getting the details from the Sanitary Engineer and that the proposal of constructing under-ground drains in the Bazaar Street of Nanjangud at an estimated cost of Rs 9600/- may be dropped A reference has been made to the Government in this behalf with this office No D3-C.3404 of 41-42 dated the 11th October 1943 to the effect that necessary plans and estimates to complete the drainage work of the Town have been called for from the Sanitary Engineer~~ing~~ by the President of the Municipality A reminder also has been issued by the President in this behalf to the Sanitary Engineer It is ascertained that the Municipality has now at its credit over Rs 55,000/- having realised Rs 39,500/- by sale of sites Soon after definite proposals are received from the Municipality a further report will be submitted to Government
